

CONTENTS

PART 1

HEREDITY AND LIGHT

Heredity and Light	25
Visible Composite Rays	25
Effects of Near Infrared Rays	25
Inward Effects of Visible Composite Rays	26
Reflection of Rays	26
The Color of Living Organisms	26
Wave-Lengths of Visible Rays and Their Variations.....	28
Colors and Animals	29
Warnings to the Earth	30
Foods are Directly Linked to Food Difficulties	32
Reduction in the Australian Wheat Crop	33
International Cornering by Large Countries	34
Cooling in the Higher Latitudes	36
One Melon Seed Will Save the Earth from Crisis	37
The Future of Living Things	38
Conclusion	40

PART 2

THERAPEUTICS'

Examples of Medicinal Treatment with Visible Composite Rays	44
Four Examples of Revival of Patients Diagnosed as Dead	45
Reviving Powers of Living Things and Confirmation of Death	57
Decision of Phototherapy on Atomic-Bomb Victims	58

Phototherapeutic Institute Foundation Asked	
Mr. Ryoichi Kunieda for Assistance	61
Investigations at Hiroshima	62
Details of Curing Progress in Patients Who	
Received Phototherapy	66
Phototherapy for Heart Defect	106
Case of "Sarujima Hepatitis"	110
Case of "Kanemi Oil Disease"	115
Hand-Schüller-Christian's Disease	122
Case of Congenital Exostosis	124
Case of Cysticerosis (reported as incurable by the	
Asahi News)	129
Delivery of Boy of 6300g	130
Cases of Dermatosclerosis	133
Cases of Gangrene	136
Case of serius Decubitus (reported by Mr. Shigehiro	
Tawara and Nobuo Morita, Hiroshima)	147
Three Examples of Curing by Phototherapy	
during World War II	151
Bronchoblenorrhœa Accompanying	
Tuberculous Periostitis	155
Chorioditis of Uterus after Exeresis of	
Vesicular Mole	156
Serious Hepatolithiasis Given up by Seven Doctors	156
Curing of Nephrosis Diagnosed as Incurable by	
Phototherapy	157
Curing of Lumber Caries by Phototherapy	158

PART 3 LIGHT RAYS

About This Chapter	165
My Motto	166
Features and Effects of Phototherapy	166
Introduction	168

CHAPTER I: THE DEVELOPMENT OF PHOTOTHERAPY THUS FAR

(1) Motive for Study of Phototherapy.....	170
(2) The Sunray Therapeutic Equipment and the	
Inventor	177
(3) Study under a Scholar Specializing in Rays	
(Spectrologist)	179
(4) Establishment of a Research Institute in	
Tokyo	179
(5) Brief Explanation on Operating Situation	
of Clinic for First 3 Years	181
(6) Data from Experiments on Animals and	
Vegetation	183

CHAPTER II: THE EFFECTS OF PHOTOTHERAPY

(1) Introduction into a Human Body of the	
energy required for resisting diseases	
(Preservation of health) etc.	188

CHAPTER III: RAYS DEVELOPED BY INTEGRATED VISIBLE PHOTOTHERAPY

(1) From Solar Phototherapy to Integrated	
visible Phototherapy	195

CHAPTER IV: SPECTRUM SUBJECTED TO RAY STUDIES

(1) Colored Spectrum.....	225
(2) Monochromatic Spectrum	232
(3) Numbers of Carbon Electrodes, Elements Contained, Peculiar Colors and Effects.....	239

CHAPTER V: PHOTO-THERAPEUTIC DEVICE

(1) Photo-therapeutic Device	244
(2) Spots for Radiation (Explanation with Photographs).....	248

CHAPTER VI: RADIATION METHOD

(1) Method of Radiation and Rays	258
(2) Duration of Radiation	260
(3) Angle of Radiation	261
(4) Distance from the Radiation Device	263
(5) Symbols for Concentrators and their Principles	264
(6) Adjustment of Electricity	266
(7) Radiation Spots	267
(8) Preparation for Radiation	282
(9) Observation of Symptoms	284

CHAPTER VII: EFFECTS OF RADIATION

(1) Analgesic Effects	287
(2) Sedative Effect on Pruritus	288
(3) Effect of Forming Granulation	289
(4) Reduction of Blood Pressure (Recovery from Anemia).....	290
(5) Promotion of Sleep	290

(6) Improvement of Appetite	292
(7) Regulation of Body Temperature (Alleviation of Fever)	293
(8) Absorption of Swelling (Promotion of Suppuration)	295

CHAPTER VIII: HEALTH AT HOME

(1) Application of Ray for Preservation of Health.....	299
(2) Invariable Principles for Existence Common to All Organisms	300
(3) Memoranda for Radiation Therapy at Home	302
(4) Radiative Therapy for Beauty	307
(5) Long Life and Rays	311

CHAPTER IX: PEDIATRICS

(1) Precautions for Pediatric Treatments	316
(2) Nightmares and Vomiting in Children	319
(3) Pertussis	321
(4) Ascarids	322
(5) Nocturnal Enuresis.....	323
(6) Scrofulousness	32
(7) Infantile Paralysis.....	325
(8) Measles	330
(9) Abarticulation in the Hip Joint and Torticollis	332

CHAPTER X: DECREPTITUDE

(1) Decreptitude	336
(2) Curvature of the Back	336
(3) Obesity (a corpulent case)	337
(4) Decline of Energy.....	342

CHAPTER XI: OBSTETRICS

(1) Vomiting in Pregnancy	346
(2) Growth of a Fetus	347
(3) Kidney Disease during Pregnancy (Pregnancy tuberculosis)	348
(4) Eclampsia	349
(5) Painless Delivery	352
(6) Light Irradiation during Childbed	354
(7) First Birth at the Age of about 40	355
(8) Ectopic Pregnancy A Rough Calculation List for Heights of Fetuses at the End of Every Month of Viniparity	356
(9) Irradiation of the Light after Miscarriage	362

CHAPTER XII: GYNECOLOGY

(1) Knowledge of Therapy for Women's Diseases	363
(2) Uterine Cancer	364
(3) Inflammation of the Pudendum	367
(4) Endometritis Parenchymatous	369
(5) Myoma of the Uterus	369
(6) Ovarian Cystoma	372
(7) Salpingitis (Inflammation of Fallopian Tube)	373
(8) Retroflexion of the Uterus and Adhesion of the Uterus.	374
(9) Menstrual Irregularities	376
(10) Infertility and Underdeveloped Uterus	377
(11) Chronic Gynecological Diseases.....	379

CHAPTER XIII: RESPIRATORY DISEASES

(1) Pulmonary Apicitis	382
------------------------------	-----

(2) Bronchial Catarrh.....	382
(3) Asthma (bronchial and cardiac).....	383
(4) Pleurisy	385
(5) Pulmonary tuberculosis	388
(6) Pulmonary Tuberculosis and Complications (Sexual intercourse is prohibited for these respiratory diseases)	390
(7) Tuberculous Meningitis	405
(8) Horse Voice	407

CHAPTER XIV: OPHTHALMOLOGY

(1) Vitalization of Ophthalmic Strength	409
(2) Test on Eyesight	411
(3) Myopia (Shortsightedness)	413
(4) Astigmatism	418
(5) Strabismus (Squinting).....	419
(6) Hypermetropia (Farsightedness).....	420
(7) Acritochromacy (Color blindness)	421
(8) Conjunctivitis	422
(9) Trichiasia	423
(10) Ptosis	424
(11) Corneitis	425
(12) Nyctalopia	428
(13) Basedow's Disease	429
(14) Purulent Ophthalmia	431
(15) Protruded Eyes	432
(16) Sty	433
(17) Cataract	434
(18) Glaucoma	436
(19) Black Cataract	438
(20) Dacryocytitis and Obstruction of the Lacrymal Gland	439

(21) Complications from Loss of Sight	440
(22) Ophthalmotumor	441
(23) German Youths Free of Myopia	447

CHAPTER XV: INTERNAL MEDICINE

(1) Cancer of the Esophagus (Esophagostenosis)	449
(2) Hepatic Diseases (Hepatitis)	452
(3) Pancreatitis	455
(4) Pancreatic Cancer	455
(5) Peritonitis	457
(6) Renal Disorders	459
(7) Heart Diseases	464
(8) Beriberi	472
(9) Cold	474
(10) Diabetes	475
(11) Hypertension	478
(12) Palsy	480
(13) Cholelithiasis	484
(14) Aneurism	486

CHAPTER XVI: TREATMENT OF THE DIGESTIVE SYSTEM

(1) Gastric Cancer	488
(2) Gastric Ulcer	492
(3) Gastropnoxis	494
(4) Gastric Hyperacidity	497
(5) Duodenal Ulcer	498
(6) Gastrectasia	499
(7) Gastric Convulsion	500
(8) Intestinal Catarrh	502
(9) Typhoid	506
(10) Cecitis (Appendicitis)	507

(11) Intestinal Stenosis; Ileus	511
(12) Constipation	513
(13) Alcoholism	514
(14) Drug Addiction	515
(15) Sitotoxism (Food Poisoning)	517

CHAPTER XVII: MOTOR ORGANS AND CONSTITUTION

(1) Preparation for Therapy	520
(2) Muscular Rheumatism (Myalgia)	521
(3) Acute Articular Rheumatism	522
(4) Multiple Rheumatism of Serous Membrane	523
(5) Chronic Multiple Stiffening Rheumatism	524
(6) Neuralgia	526
(7) Contusive Neuralgia	533
(8) Motor Neurasthenia	534
(9) Herpes Neuralgia	536
(10) Stiff and Painful Shoulder	537
(11) Prostatomegaly	538
(12) Ruptured Inter-vertebral Disk	539
(13) Whiplash	540
(14) Malignant Derinitis	540
(15) Whitlow	542
(16) Stiff-shoulder	546
(17) Neurasthenia	547
(18) Epilepsy	548

CHAPTER XVIII: SURGERY

(1) Incisure	554
(2) Burn	555
(3) Swelling	571
(4) Sprain	572

(5) Contusion	573
(6) Toothache	577
(7) Alveolar Pyorrhea, Alveolar Abscess	579
(8) Radiation for Teeth Strengthening	580
(9) Actinomycosis	581

CHAPTER XIX: OTORHINOLARYNGOLOGY

(1) Acute Tympanitis	585
(2) Chronic Tympanitis	587
(3) Acute Papillitis	588
(4) Parotitis	589
(5) Local Otitis Externa	590
(6) Myringitis	590
(7) Rupture of Eardrum	590
(8) Deafness	591
(9) Tonsillitis	592
(10) Tongue Cancer	594
(11) Empyema	596
(12) Acute Nasitis	597
(13) Acute Suppurative Nasitis	597
(14) Chronic Nasal Atrophy	598
(15) Chronic Hyperitrophic Rhinitis	598
(16) Nasal Polyp	598

CHAPTER XX: DERMATOLOGY

(1) Directions during Treatment of Dermatoses	600
(2) Eczema	602
(3) Prurigo	610
(4) Trichophytosis	612
(5) Trichophytia Pompholyciformis	614
(6) Sudamen	622
(7) Acne (Acne Vulgaris)	623

(8) Congelation	624
(9) Seborrhoea	626
(10) Leudoderma	627
(11) Erysipelas	628
(12) Furunculosis	632
(13) Elephantiasis	637
(14) Hydrocele Testis	639
(15) Nettle Rash	641
(16) Gout	643
(17) Alopecia (Atrichia)	643
(18) Tuberculide	649

CHAPTER XXI: EDEOLOGY

(1) Impotentia Erigendi	652
(2) Sexual Frigidity	653
(3) Gonorrhoea	654
(4) Prostatomegaly	664
(5) Orchitis	664
(6) Non-specific Urethritis	671
(7) Chancreoid	671
(8) Syphilis	674
(9) Cerebral Syphilis	676
(10) Cystitis	677
(11) Urethritis	684

CHAPTER XXII: PROCTOLOGY

(1) An Outline of Diseases of the Anus	685
(2) Anal Fistula	685
(3) Hemorrhoids	688
(4) Archoptosis	690
(5) Rima Ani	691
(6) Periproctitis	692

CHAPTER XXIII: MISCELLANEOUS

(1) Tuberculosis of Bones and Joints695
(2) Periostitis702
(3) A Case Sentenced to Amputation of a Foot
From the Ankle but Cured by Phototherapy707
(4) The Case of Shin Bone Caries Which Had
Been Incised Two Times, Recurred to
Worsen Later.....709
(5) The Case of Complicated Fracture of the
Right Antebrachium (Radius, Ulna).....710
(6) The Fracture of a Femur in an 81 Year-Old
Female was Cured714
(7) A Case in which Plastic Surgery Failed but
98 Applications of the Ray Restored the
Figure Fifty Per Cent715
(8) The Case of Phototherapy for a Post Injury
Syndrome Caused by a Bony Cut in the Left
Frontal Bone, Fractured Forehead, and a Cut in
the Right Cranium718
(9) A Case of Phototherapy during World War II ...720
(10) Experiment to Prove Harmlessness of
Phototherapy.....738
(11) Phototherapy Bibliography
(1) Study on Changes of Blood PH and
Serum Electrolyte by Means of Carbon
Electrode Arc-Light Lamp Rays743
(12) Physician's Clinical Report of Two Cases
Treated by Light-ray Therapy
(1) A Therapeutic Case of Serious
Spontaneous Pneumothorax on the
Left Side with Complications of Right
Lung Infiltration and Hepatitis.762

(2) Visible Light Ray Therapy in Illness
Involving Pain775
(13) Therapeutic Effects on Diseases Requiring
Medical Treatment Using Special Light Rays
(Light-ray Lamp)
(First Report)—Takashi Imai,
Department of Surgery, Yokohama School
of Medicine (Prof. Yoshio Akitani, Director).....794
